Visitors to the Monument were about the same as last year, but for some reason the number of those who vent in to gaze at the Daniel Chester French statue of the Great Emancipater increased nearly 400,000. Statue of Liberty Loses

While you are working on the whys of this, add the fact that in New York harbor, that mecca of tourists for generations, the Statue of Liberty attracted only 330,076 and this during World's Fair time, too. The Statute of Liberty did a bit of a nose dive in popularity, drawing about 40,000 fewer unofficial inspectors than a year ago.

And if you are not confused enough low, take into consideration that of the memorials that the park service keeps a check on, the least popular was the house where Lincoln died only about 13,000 persons visiting that spot in the 11 months.

Gettysburg Tops Of the military parks, battlefields and cometeries, Gettysburg was tops, with more than half a million visitors, but the supposedly much lesser known Chickamauga-Chattanooga battle site was a respectably close second, with 416,774 visitors.

For more than 600 years the Burma road was a pack trail and in sections rutted cart road. But in 1937, when Ching Kai-Shek saw the need for opening what might be his last lifeline to the south (he hasn't any other now but the 2,000-mile truck road in-
